To the Editor of the Tribune:

SIR—No doubt very many of our emigrants should go to Missouri, Kansas, and Nebraska. The lands in these States cannot be surpassed, and, on many accounts, strong inducements are held out to emigrants. The writer of this has recently gone through the whole extent of Missouri, and a large part of Kansas, and can speak of them from personal observation as attractive States; but in the case of very many emigrants, I am satisfied it would be better for them to go to West Virginia. All are not adapted to pioneer life; and All are not adapted to pioneer life; and the resources of no State in agricul-ture, mining and manufacturing capa-bilities surpass those of West Vir-

WALTHAM WATCHES

To Buyers of Watches Everywhere. The greater part of the jewelers of the inited States keep Waltham Watches, and United States keep Waltham Watches, and cordially recommend thom to their customers, notwithstanding the fact that less profit is made on these watches than on any others generally sold by the trade. The reason of this is, that the reputation or the Waltham Watch renders it an easy sale, and the result is, that, although the dealer does not make as much money on each individual watch as he may on the sale of other watches, he is still the gainer through larger and livelier sales. There are some, however among the trade, who do not give the Waltham Watch the hearty support which it deserves. This portion of the trade fancy there is more money to be made by dealing in watches about which the public are ignorant, and are content to make an occasional sale and are content to make an occasional sale of such watches at a large profit. It is this class of dealers who, when asked about Waltham Watches, use that kind of lan-guage which leads the customer to buy just such a watch as is the most profitable for the dealer to sell. For the information of persons about t

dealer to sell.

For the information of persons about to buy a watch, and who may be unfavorably affected by the representations of those unfriendly to our watches, we call attention to the following suggestions:

Since the manufacture of watches was initiated at Waltham, the Company have made and sold about 400,000 watches. In every town and village of the country some wearer of a Waltham Watch may be found. Let the party about to buy ask this owner of an American Watch this question:

HAB YOUR WATCH GIVEN YOU SAT-IBFACTION?

We are not afraid to advise those wishing to buy a watch to guide theinselves by the answer. Being satisfied as to the quality of the watch, the buyer has now only tosatisfy himself that the Waltham Watches are THE CHEAFEST as well as the best. On this head we have a few words to say:

It is a well known fact in manufacturing, that the greater the number of articles wanniegeneral.

It is a well known fact in manufacturing, that the greater the number of articles manufactured by one establishment, the smaller will be the cost of each individual article. Keeping this in view, our policy has always teen to sell our products at the lowest possible price in order to secure large sales, and thus enable us to manufacture watches at a minimum cost. WE BE-LIEVE IN SMALL PROFITS AND A LARGE BUSINESS. This policy we have successfully carried out, and the result is, that to-day we manufacture twice as many watches as all the other factories in the United States put together. We can, therefore, afford to sell Cheaper than they do, and actually do sell Prently-five per cent Cheaper than they do quality for quality.

We would further remark that infincreasing our production we have constantly improved its QUALITY AND ITS VARIETY. We have had the refusal of nearly all invening our production we have constainty inproved its QUALITY AND ITS VARIETY.
We have had the refusal of nearly all inventions intended to improve time-pieces, and
have adopted all those, and those only,
which have proved to be really valuable.
We have retained in our employment every
head of a department we have ever had
whose services were of any importance to
the Company, and our present corps of designers and master mechanics caunot be
equaled in this or any other country. In
addition to this we make gold and allver
cases, not only for our own movements, but
only establishment that turns out watches
complete in every respect.
As these Watches are for sale by the trade
generally throughout the United States, and

As these watches are for size by the than generally throughout the United States, and at a retail profit made: most reasonable by competition, the Company invariably decline orders of a retail character.
